Sidewalk Repairs

Some residents have asked the board about doing repairs to damaged sidewalk that are in front of their homes.

The city of Livermore has a website that

provides information on this subject. On their site it states: "The Streets and Highways Code of the State of California places on each property owner the responsibility for the sidewalk and curb and gutter abutting his or her property". Also it states, that if the condition meets the City criteria for repair, the City will generally pay 25% of the repair cost and the property owner 75%.
